

Internship Offer Cover Letter -

To Officer-in-charge  
Placement Operations

14<sup>th</sup> May, 2015

Subject : Internship cum Placement Opportunity for Students

Sir,

doDukaan is an early stage startup in hyper-local market space. It is started by alumni of IIT Kharagpur who have combined 5 years of experience in technology. We are working on multiple projects in Kolkata currently. You can find more about it at [dodukaan.com/careers](http://dodukaan.com/careers).

A specific project involves designing methods for local stores data aggregation. At present we are taking interns in software and sales field. Post their internships this year, we will give placement offers to them depending on their performance. A compensation of 10k per month will be given for internship which will be for two months. Full time offers will be given to a selected few.

If you find our startup suitable as per your placement/internship criteria, we would conduct a small aptitude test and would like to take interested students on the basis of test and CV. We are reachable on mail at [dodukaan@gmail.com](mailto:dodukaan@gmail.com) and on phone at +917506184927.

Waiting for your reply,

Team doDukaan
